COURSE DESCRIPTION & ENTRANCE GUIDE

Current official notices checked: 08 October 2026

A message to parents

The right opportunity begins with a clear understanding of the child and the admission route.

“

Every child deserves a route that matches their strengths, aspirations and circumstances.

Dear Parents and Students,

Since founding VCGC in 2008, I have seen that entrance preparation works best when fundamentals, regular practice and honest feedback move together. A child may be suited to one school pathway or several; the first step is to understand the rules before choosing the target.

V-SEEP brings the Class VI and IX options into one guided plan. We will help students strengthen concepts, practise the correct paper pattern, learn from each test and approach interviews or document checks with confidence. For Class VI routes that use a lottery, the priority is accurate application guidance.

Our promise is attentive teaching and careful guidance. Admission depends on the examining body, eligibility, merit, vacancies and its published process. Let us build a strong foundation and give every student the courage to aim high.

With best wishes,

Seven routes. One plan.

A focused course for students currently in Class V or VIII, with route-specific preparation.

HOW THE PREPARATION WORKS

01

LEARN

Build mathematics, language, science/EVS and social science foundations.

02

PRACTISE

Add reasoning, general awareness and school-specific subject weightage.

03

TEST & IMPROVE

Use timed papers and OMR practice; review errors and adjust the plan.

CHOOSING AN EXAM IS AN ELIGIBILITY DECISION

Check the child's present class, date of birth, district and domicile, recognised-school history, gender/campus seat rules, boarding needs and category documents. AISSEE, RMS-CET and UP Sainik are three separate applications. BHU Class VI used an e-lottery in 2026; JNV Class IX is vacancy-based.

VCGC COURSE HIGHLIGHTS

● Route-specific practice

Class V/VIII baseline plus the exact sections used by each written test.

● Progress review

Learn → Practise → Test → Analyse → Improve.

● Application awareness

Dates and forms are checked against the organiser's own notices.

● AMU Urdu support

Basic reading, understanding and practice for learners who need it.

IMPORTANT COURSE TIMING

The announced VCGC AMU Class VI/IX batch begins 23 November 2026. RMS-CET (13 December), UP Sainik (20 December tentative) and JNV VI (28 November) are near-term exams; ask VCGC for the applicable immediate preparation schedule before enrolling.
